

PICAPCPU graphical display of a month of CMT-data

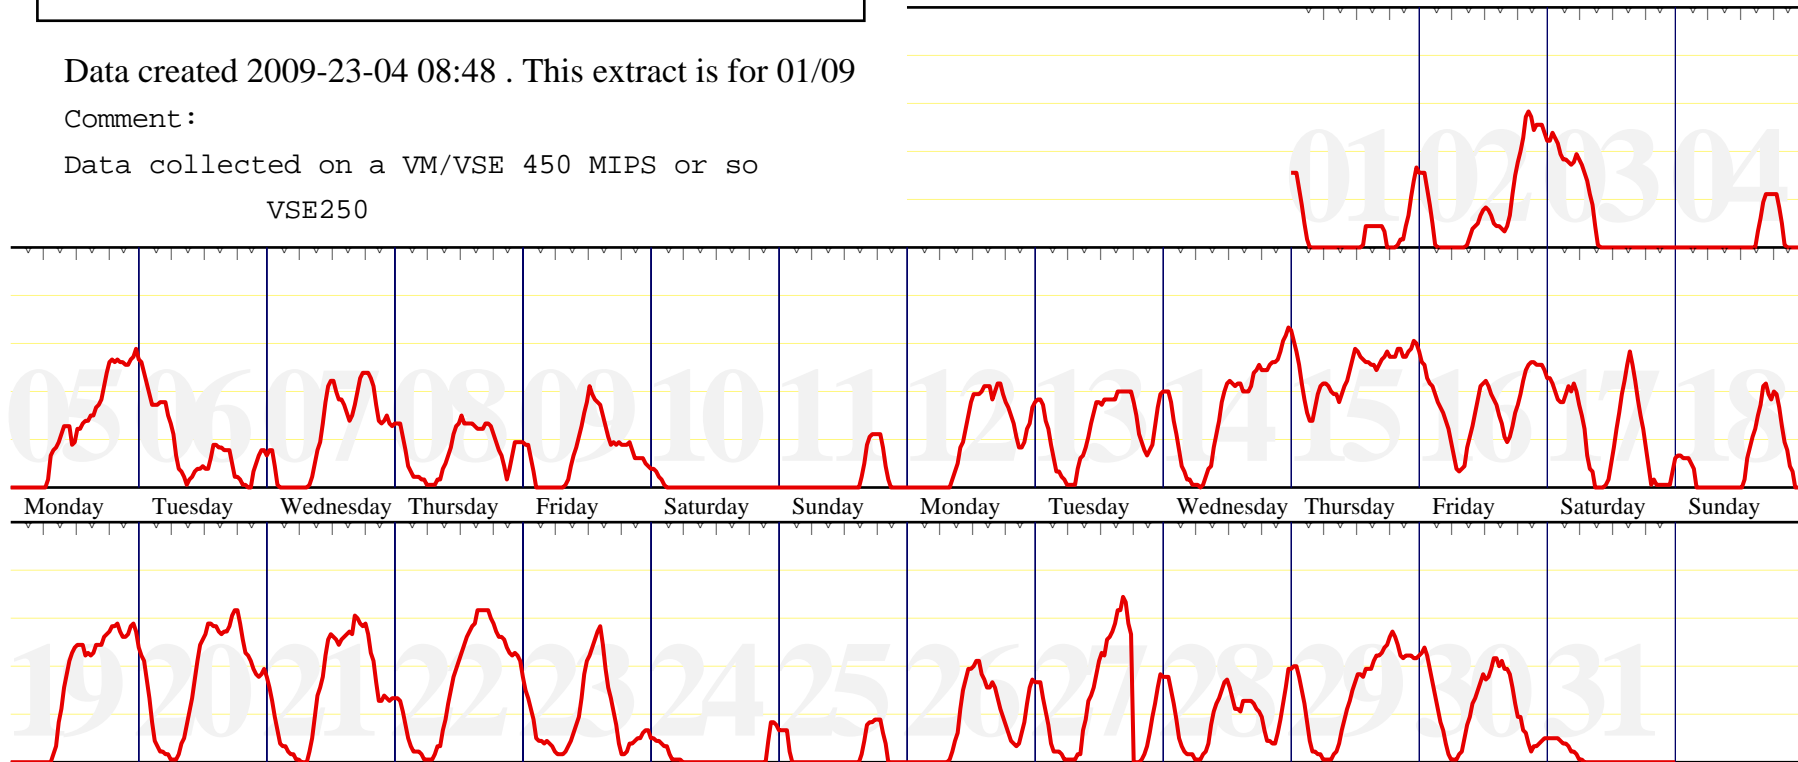

this PDF was made by PICC05 V1.12 invoked on 2009-06-28 at 09:21

this shows (recalculated) rolling average for 4 hours
the HW-calculated 4h-roll-avg as recorded in the CMT-files

Data created 2009-23-04 08:48 . This extract is for 01/09

Comment :

Data collected on a VM/VSE 450 MIPS or so
VSE250

This is the evaluation version

Number of samples used for this graph:	1489
Samples required to cover all intervalls:	1488
This is a coverage of ...percent	100.1
Avg calculated over collected samples:	20.5
